**Technical Project Manager and Senior Flutter Developer with 6+ years of experience delivering scalable mobile applications and leading cross-functional teams.**

**Successfully led the recovery and delivery of 10+ delayed projects within 3 months, improving delivery efficiency and restoring client satisfaction.**

**Strong background in mobile architecture, performance optimization, and end-to-end product delivery, with hands-on experience across 25+ deployed applications.**

## Experience

### Technical Project Manager | Code7x

*2025 – Present*

- Recovered and delivered 10 delayed cross-platform projects within 3 months, reducing backlog by 70% and improving delivery consistency.
- Led a team of 15 developers across multiple projects, ensuring alignment between business goals and technical execution.
- Acted as the primary point of contact for clients, managing expectations and restoring trust through transparent communication.
- Implemented a task prioritization framework that improved delivery speed and reduced project bottlenecks.
- Provided technical oversight across mobile and web projects, ensuring quality and scalability.
- Improved team productivity by restructuring workflows and introducing daily tracking mechanisms.

### Senior Flutter Developer | IDAM

*2024 – 2025*

- Designed and developed scalable, responsive mobile UIs using advanced Flutter widgets and reusable components, improving development efficiency and UI consistency.
- Collaborated directly with clients to analyze complex requirements and translate them into robust technical solutions aligned with business goals.
- Optimized application performance by reducing unnecessary rebuilds and

improving rendering efficiency, resulting in smoother user experience and improved app responsiveness.

## Flutter Team Lead | Code Time

2023 – 2024

- Established engineering best practices and coding standards for a newly formed Flutter team, improving code quality and maintainability.
- Architected scalable Flutter project structures using Clean Architecture principles, enabling easier onboarding and faster feature development.
- Led and mentored junior developers, increasing team productivity and reducing delivery time across multiple projects.

## Flutter Developer | SmartLink LLC

2022 – 2023

- Developed and deployed a high-performance mobile application (NXT Project) focused on talent development, ensuring stability and smooth user experience.
- Improved user engagement and retention by optimizing performance, fixing critical issues, and enhancing application responsiveness.
- Integrated secure authentication methods including Facebook, Google, Apple, and TikTok, ensuring seamless user onboarding.

## Flutter Developer | Awammer Al Shabaka

2020 – 2022

- Delivered 15+ mobile applications with a focus on high-quality adaptive UI and performance optimization.
- Collaborated with clients to understand business requirements and deliver customized mobile solutions.
- Improved application stability and performance through debugging, issue resolution, and continuous optimization.

## Skills

- **Project & Team Management:** Technical Project Management, Stakeholder Management, Agile (Scrum/Kanban), Task Prioritization, Team Mentorship, Resource Allocation.
- **Frameworks & Languages:** Flutter, Dart, Kotlin, Swift.
- **State Management:** Bloc, Cubit, GetX.
- **API Integration:** RESTful APIs, GraphQL, Firebase, Socket I/O, SignalR.
- **Software Engineering:** OOP, SOLID Principles, TDD, Clean Architecture, Design Patterns.
- **Storage & Databases:** Local Storage (Shared Preferences, Hive), Offline Data Persistence.

- **Tools & Technologies:** Git, CI/CD, Google Maps Integration, GitHub, GitLab, Bitbucket.
- **Management Tools:** ClickUp, Trello, Jira, Slack.

## Education

**Bachelor's Degree in Computer and Information Science**

(2017 – 2021)

Very Good

## Languages

- **Arabic** - Native
- **English** - Proficient
